JICA Clean City Initiative

“JICA Clean City Initiative (JCCI)” contributes to building a sustainable society that can realize a healthy environment and protect the health and living environment of people in partner countries by promoting environmental measures such as waste management and water and air pollution control. We will contribute to building a sustainable society that realizes a healthy environment and preserves the health and living environment of people in partner countries.

Date

Thu. 2nd Feb. 2023, 10-17 (JST)

Language: Japanese, English and Spanish (Simultaneous interpretation)

- ▶ How to create recycling-oriented societies.
- ▶ How to create Net Zero societies.
- ▶ Review of good practices (Vietnam, Mexico, Mozambique, etc.)
